PROFESSIONAL SUMMARY

Cybersecurity-focused undergraduate with hands-on experience in developing and analyzing security-oriented tools and applications. Worked on real-world projects including Android privacy leak analysis, secure automation systems, and threat detection concepts. Familiar with SOC fundamentals, IDS concepts, network traffic analysis, and security testing tools. Seeking a Cybersecurity Intern role.

EDUCATION

Bachelor of Computer Science, *DR.G.Y.Pathrikar college of CS & IT MGMU* 2023 – 2027
Chh. Sambhajinagar

TECHNICAL SKILLS

Cybersecurity Fundamentals

Threat Detection

Android Security

Tools

- Wireshark
- Kali Linux
- Nmap
- Burp Suite
- Metasploit
- Androguard

Networking

- TCP/IP
- DNS
- HTTP/HTTPS
- Packet Analysis

SOC & Blue Team Basics

IDS Concepts

Web Security

Programming

- Python
- Flask
- Tkinter
- Java (Basic)

PROJECTS

Privacy Leak Analyzer for Android Applications

- Static APK analysis to detect risky permissions and insecure APIs
- Risk scoring and visualization dashboard

Automated Backup System with Security Controls

- Secure folder backups with MFA and email alerts
